DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

Claim 1 recites:

A second shaft disposed on said cam rack; and

A curved bar slidably disposed on said chassis, said curved bar touching against said second shaft;

Wherein, when said curved bar is actuated in a direction parallel to a moving direction of said tray, said curved bar drives said second shaft in order to make said cam rack move in a direction perpendicular to said moving direction of said tray, said first shaft moves from said first end of said track to said second end, and said tray is ejected from said housing.

Claim 4 recites:

A second shaft disposed on said cam rack; and

A block slidably disposed on said chassis, a surface of said block touching against said second shaft, an angle forming between said surface and a moving direction of said tray being less than 90 degrees;

Wherein, when said block is actuated in a direction parallel to said moving direction of said tray, said block pushes said second shaft in order to make said cam rack move in a direction perpendicular to said moving direction of said tray, said first shaft moves from said first end of said track to said second end, and said tray is ejected from said housing.

Art Unit: 2653

2. These features in combination with the other features on the claims are not anticipated by, nor made obvious over the prior art of the record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
